rjtools package installation

- install *lbxml2-dev* (for Debian, Ubuntu) - which is for RPi OS
- go into RStudio or using `R` command in the terminal:
    - install *xml2* and *distill*

```
install.packages("xml2")
install.packages("distill")
```
    - rjtools installation
```
install.packages("remotes")
remotes::install_github("rjournal/rjtools")
```
- *rjtools* should now be installed

about rjtools

- https://rjournal.github.io/rjtools/
- https://github.com/rjournal/rjtools/
